Creative ~ Innovative ~ Client Focused ~ Multi-Skilled

Aesthetically-inclined architect possessing strong passion and appreciation for designs and details. Enjoys the challenges of heading projects from start to end including construction drawings, space planning, material & color selection and client interactions & time limitations

Architectural capabilities:

- Design Development
- Architectural Design
- Graphic presentations & layouts
- Interior Design
- Urban planning
- Technical Drawings

Professional experience: 11 Years

Architecture & Civil Engineering Services, Islamabad (2015- till date)

CHIEF ARCHITECT:

Coordination with client, coordination with staff, preparation of Inception report, finalization of design, coordination for finalization of detailed construction drawings.

MAJOR WORKS:

Jacaranda Park, DHA 2, Islamabad (I led the team in this project. I handled everything from contract signing to the site visits and implementation).

Swimming Pool, Islamabad (I was involved in all stages of this project. I'm still supervising the site activities and finding solutions to the problems in the process)

Civil Works Organization, Islamabad

ARCHITECT:

Independently handled projects ranging from small scale residential building to large scale projects like monument structures & university designing etc.

Multi storey residential accommodation at Startcom Chattar (I was involved in the preparation of schematic drawings and perspective views).

Marriage Hall, Islamabad (Concept development was done by me along with interior detailing)

Mosque, Murree (I was responsible for the planning and development of this structure. I formulated a concept combining the traditional mosque design principles with the contemporary methods of design).

Auditorium, Abbottabad (I was part of the design team handling this technical projects, site documentations, technical sections and front façade development was done by me under the supervision of the senior architect)

"....She is a keen and hardworking personwith the ability to comprehend new ideas quickly..."
